4	a. values	b. incomes	c. artworks	d. invitations
5	a. chosen	b. suggested	c. attempted	d. influenced
6	a. medical	b. common	c. ancient	d. present

*Photography is a way of making a picture using a camera. A person who makes pictures using a camera is called a photographer. A picture made using a camera is called a photograph or photo. A camera is, in the simplest form, like a box with a hole in front of it. There is a special piece of glass in front of the hole called a lens. To take a photograph of something, the lens makes a small picture of the object inside the camera. The lens does this by focusing light. A lens in camera works like a lens in glasses. To make a photograph with a camera the shutter release button is pressed. Pressing the button opens the shutter. The shutter is like a door. It covers the hole in the camera box. When the shutter is open light can enter the camera. When the button is pressed the shutter opens and then closes. This happens very fast. The amount of time the shutter stays open for is called the shutter speed. The shutter speed can change between  $1/1000^{\text{th}}$  of a second to a few seconds. Normally the time taken for the shutter to open and close is far less than one second.*

- 1. A picture made using a camera is called a photo. ( true or false )*
- 2. The shutter covers the hole in the camera box. ( true or false )*
- 3. A lens in camera doesn't work like a lens in glasses. ( true or false )*
- 4. A video camera is a device that takes pictures. ( true or false )*
- 5. What does a photographer do?*
- 6. What is the shutter speed?*

*Good Luck*

*Hassan Khakpour*
