It is very important for us to respect our elders. It is also important to note that elders were not born elders; they were kids like us and now have grown old. A few years hence we will also grow older. If today we respect them, our present and future generations will carry those values and will learn to respect us as well when we grow old. Elders have a lot to share with us: their life experiences, their failures, their successes and many more. Thus, we need to care for them because they deserve to be cared for. Respect and care for elders start with our parents, as **they** are our first teachers in our life. No matter what we do in our lives, who we are, and where we live, we must love them as they love us unconditionally. They feel honored when we appreciate their love and respect them.

1. It is important to remember that elders were not born elders. a) True b) False
2. The passage says that elders have nothing to share with us. a) True b) False
3. What does “**they**” in the third line of paragraph 2 refer to?

Many countries now think that cars that burn fossil fuels should be replaced by electric cars. Electric cars don't burn gasoline in the engine, so they don't pollute the air. They use electricity stored on the car in batteries. Sometimes, 12 or 24 batteries, or more, are needed to power the car. Just like a remote-controlled car, an electric car has an electric motor that turns the wheels and a battery to run the motor.

Electricity, the same energy that lights your lamps and runs your TV, is stored in batteries on an electric car. The batteries can be like the batteries you find in flashlights or in regular gasoline cars. To get the battery ready to

roll, you have to charge it. This process isn't much different from the way you charge the portable devices you carry around every day: your cell phone, MP3 player, or digital camera. The difference is that you deal with a much bigger gadget that carries you around instead.

1. According to the passage, many countries think that cars that use fossil fuels should be replaced by electric cars. **a) True b) False**

Energy is the ability to do work. It can take a variety of forms: mechanical, electrical, chemical, and nuclear. To produce any type of energy, the resources of the earth are used. The main resources of the earth are fossil fuels such as natural gas, oil, and coal.

We get most of our energy from these fossil fuels, but this is harmful to the environment. Fossil fuels are nonrenewable and cannot be replaced easily. Once we use them up, they're gone forever. They are not clean as they pollute water or air. In recent years, scientists try to use other types of energy resources. They call them clean energy resources because they do not pollute the earth. Clean energy is renewable. It is made from resources that can be replaced, like wind, water, sunshine, tides, and plants. The most common type of clean energy is the solar power. Solar energy is produced by the radiation that reaches the earth. People have used the sun as a heat source for thousands of years.

Many countries have used the energy in moving water for thousands of years. And today, it's still a powerful resource that can generate clean, renewable, and cheap electricity. They produce energy from running water and convert it to electricity. The power that is produced as a result of falling or running water is called "hydroelectric power" or "hydropower". Turbines and generators convert this power into electricity.

Today, about 19% of all our electricity is generated from hydropower, making it one of the largest sources of renewable power. So what makes hydropower renewable? It's simple: water. Water is converted into clouds and recycles back to earth as rain. This process is called "The Water Cycle". The water cycle is continuously recharging and can be used to produce electricity along the way.

1. According to the passage, the energy in moving water can generate clean, renewable, and cheap electricity.
a) True b) False

2. Many countries produce energy from and convert it to

3. The power produced from falling or running water is called.....

a) water cycle b) turbine c) hydropower d) generator

4. The passage says..... makes hydropower renewable.

a) electricity b) water c) earth d) cloud

5. What is the **best title** for this text?

a) Different sources of energy b) Converting electricity c) Electrical air conditioner d) Hydropower

A dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. The word 'dictionary' comes from the Latin 'dictio' ('saying').

There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words.

Dictionaries which explain what words mean give a clear 'definition' of **them**. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this purpose. There are also dictionaries which translate words into other languages. When using a dictionary to find out how to say something in another language, one has to be careful to choose the right meaning.

10. Since dictionaries put words in alphabetical order, you can find them easily. a) True b) False

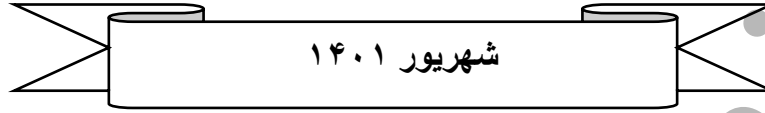

11. The word 'dictionary' comes from the French 'dictio'. a) True b) False

Answer the following questions.

12. What does "them" in the first line of paragraph 3 refer to?

13. What is a technical dictionary?

Solar energy is the most effective of all energy resources and it can even be available in cloudy weather. The solar energy which comes to the Earth is about 10,000 times greater than the amount which humankind consumes. Solar technologies can deliver heat, cooling, natural lighting, electricity, and fuels. Solar technologies convert sunlight into electrical energy through solar panels or mirrors. Although not all countries use solar energy, it is possible for every country.

The cost of producing solar panels has surprisingly decreased in the last few years, making them not only in access but often the cheapest form of electricity. Depending on the type of material used in their production, solar panels can work for around 30 years.

- 1) Solar energy comes from the Earth. a. True b. False
- 2) Solar panels cost a lot in the last few years. a. True b. False
- 3) Solar panels convert sunlight into electrical energy. a. True b. False
- 4) All countries use solar energy to generate electricity. a. True b. False
- 5) In cloudy weather..... is available.
- 6) Solar are produced to work for a long time.
- 7) What do solar technologies deliver to us?

Sleep is essential for all people. Did you know that sleep is more important than food? A person, who does not sleep, dies at a younger age than one who does not eat. Let's say you sleep 12 hours later than you usually do. It will take your body about three weeks to return to normal. We spend about one-third (1/3) of our lives in sleep. That's about 121 days a year!

How much sleep do we require? We are all different. A baby needs 16 hours of sleep every day. Children 6 to 12 years old need an average of 10 to 12 hours of sleep. A teenager needs 9 to 10 hours, and an adult needs an average of 7 to 8 hours of sleep a night. Of course, some people need only 3 hours of sleep each night. Others need 10 hours of sleep. After age 50, the average sleep time goes down to 6.5 hours a night. We need less sleep as we get older.

- 8) Food is less important than sleep. a. True b. False
- 9) There is no difference in sleep time among people. a. True b. False

10) Old people need.....hours of sleep each night.

- a. 9 to 10 b. 10 to 12 c. 6.5 d. 16

11) A person, who does not sleep,.....than one who does not eat.

- a. lives longer b. lives less c. eats more d. gets older

Looking up words you don't know can be difficult, especially if you don't know which definition to choose when you open a dictionary. When to look up a word, how an English dictionary is compiled, and which description to choose will help you effectively use the dictionary to improve your understanding of the reading texts. First, decide when to use the dictionary. Guess the meaning of the word based on the context before looking **it** up. Read the whole sentence, and continue to read the paragraph to see if you can guess the meaning of the word based on the information surrounding it. Identify the part of speech, if you can, to help you find the meaning of the word. Look for prefixes, suffixes or roots that suggest the word meaning.

If you are still confused or think you are missing important information, now it is the time to take out the dictionary. Decide which type of dictionary to use. There are different types of dictionaries available. They are called online dictionaries, learner's dictionaries, bilingual dictionaries, and monolingual dictionaries

13) After looking the word up, try to guess it. a. True b. False

14) The information around the words helps you guess their meanings. a. True b. False

15) Dictionary helps you.....

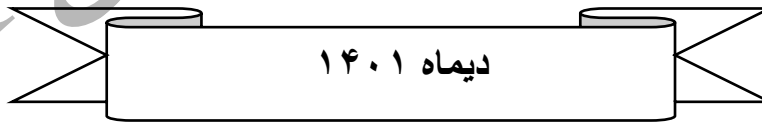

- a. to miss important information b. to guess the meaning of the word
c. to read the whole sentence d. to improve reading understanding

16) What does "**it**" in paragraph one refer to.....

Children are taught to respect elders by their parents at very young ages. Throughout school and university, they are reminded of them while their personalities develop. But still, we often forget to respect our elders.

Respecting elders should come from within. Respecting elders come under good habits and manners. Everyone welcomes a well-behaved person. As we all know, history repeats itself. If we will respect our elders today, we will get respect when we grow old.

There are many ways to show respect to elders. For example, they feel happy and honored when we include them in the decision making of the family. They are more experienced than us and they also have walked the same path before us. So, we should always ask for their advice.

Another way is listening to **them** and following their customs, which they have lived up to. We should also **repeatedly** visit them and invite them to our house, too. We should often sit and eat with them. All this will help us to recognize and appreciate our elders. Always remember that people are always judged by their actions and each word or action has a reaction. So, if you want to succeed and be happy in life, start respecting elders by being polite. Finally, I would like to say, our elders are really worthy and we should respect them.

1) The word "**repeatedly**" in the second line of paragraph 3 means

- a) many ways b) many times c) many customs d) many actions

2) What does "**them**" in the first line of paragraph 3 refer to?

- a) manners b) habits c) elders d) families

3) When do elders feel honored?

4) Why should we ask elders for their advice?

5) According to the passage, what does the term "history repeats itself" mean?

Writing, or orthography, is often seen as the last language learning skill in learning English as a foreign language. The spelling of the words can be very different from their pronunciations. The English alphabet may be completely different from the Persian language alphabet, which makes the learners learn a new learning task called alphabet learning.

It can be helpful to write by using the English language whenever you can and get writing practice. For example, you could write lists of things you need to do or buy. By doing **this**, you will find new words, and by writing these things down, you will learn new spellings. Write e-mails and notes in English whenever you can. Another way to use your writing skills is to write in a diary or journal in English. You can make notes on your day, including what you did, where you went, what you enjoyed or learned, how you felt, and who and why you talked to someone. By writing about your day in a journal, you will practice the past tense in English and develop your writing skills.

6) The spellings and pronunciations of all words are the same. **True** / **False**

7) Writing about your day in a journal improves your writing skills. **True** / **False**

8) By writing practice, you can improve your-----

- a) listening b) reading c) speaking d) spelling

9) What does "**this**" in the second line of paragraph 2 refer to-----

- a) finding new words b) writing lists of things you need to do or buy

- c) learning new spellings d) learning English alphabet

10) How can you improve your writing skills and practice the past tense?

Although you might not like ants when they get in your food or get into your home, ants are interesting tiny insects and do help the environment. They are advanced social insects, because they live in highly organized large colonies where each group has complicated important relationships with many others. The queen ant has wings and its primary function is to lay eggs. The other female ants are called workers. They build the anthill, find food and even act as soldiers. The soldier ants protect the queen, defend the colony and attack enemy colonies in search of food.

Ants don't have ears. Ants hear by feeling vibrations in the ground through their feet. They can carry things 20 times heavier than their own body weight. The muscle arrangement in an ant gives it great strength allowing it to carry heavy things toward the entry point of the anthill. Their colonies can contain millions of ants. When a queen ant dies, the entire colony usually dies within a few months. Although many people may suppose that ants aren't dangerous, scientists have compiled a list of them which can hurt. For instance, there is a kind of ant in Australia that has a bite and can kill a person.

- 11) All ants are dangerous for human **True / False**
- 12) Ants are social insects and do help the environment. **True / False**
- 13) Which of the following is **NOT true** about soldier ants?
- a) They take care of the queen. b) They help to defend the colony.
- c) They find food for the colony. d) they are very strong and big
- 14) According to the passage, the colony may continue to exist for a few months --
- a) when they obey the queen ant b) when they carry heavy things
- c) when they lose the queen ant d) when attack enemy colonies

Answer the following question.

15) How do ants hear?

Note-taking is a necessary part of the language learning. It helps students learn, keep, and remember information. Taking notes make them think differently about the subject; it requires the learners to look at things differently. It also helps them pay attention during the class because they are actively listening and experiencing in the classroom. Not only do the students meet their needs by taking good notes in English classes, but everyone should find note-taking as the best way to work with written and spoken texts. Taking notes let

learners check interesting points from what they are researching, reading or listening to. Writing some parts in their own words, also called note-making, makes everything clear for the notetakers when looking back at the text. It is a much better learning technique than just depending on your own memory.

Remember that word-for-word note-taking can hurt systematic thinking as it takes away the time of explaining ideas through examples and pictures by just writing down facts without context. It is why Isaac Newton said that he did great things just because he was sitting in the great men's classes and taking notes.

- 1) Note-taking makes learners different in thinking. a) True b) False
- 2) You should write in your own words when taking notes. a) True b) False
- 3) Which of the following is NOT true about note-taking?
 - a) It helps learners check interesting points
 - b) It is used for written and spoken texts
 - c) It helps learners pay attention during class
 - d) It depends on your memory
- 4) According to the passage, word-for-word note-taking can hurt systematic thinking because -----
 - a) it explains ideas through pictures
 - b) it takes away the time of people
 - c) it is writing down facts without context
 - d) it depends on active listening
- 5) Why did Isaac Newton do great things?
- 6) Why does note-taking help students pay attention during the class?

Donating is a great way to help others by giving something to someone who needs it more than us. It could be clothes, food, toys, or even our time. People donate clothes and other items to some stores, and others can buy them at less price. The money from these sales often goes to help people in need.

Another place to donate is a place that collects food for people who don't have enough to eat. By donating food, we can help someone have enough to eat. Sometimes, we can give money. Some organizations use the money to build schools, provide medical help, or even protect the environment. We can also donate our time by helping or using our skills to help those who need it. Whether reading to children at a library or cleaning up a park, our help can bring joy and make our community. Donating is a generous act. It teaches us to think of others and be kind. So, let's remember the power of donating and keep giving what we can to make the world a better place.

- 1) Some people in need donate clothes to stores. a) True b) False
- 2) People learn to think of others and be kind through donating. a) True b) False
- 3) Which of the following is true about donating?
 - a) People donate to learn skills.
 - b) Donating food is more important than money.
 - c) Donating takes different shapes.
 - d) People should eat enough food to donate others.

Trees are important plants that are everywhere. They are in different shapes and sizes, but they all are valuable and beautiful. Trees give us clean and fresh air. They take in a dangerous gas called carbon dioxide produced by burning fossil fuels, and they give out oxygen, which is necessary for life. Without trees, the air would not be healthy.

Trees provide a safe place for animals. They are homes for many of them and also give food to those animals. Trees make us cool on hot and sunny days. Their leaves provide a place to relax and have picnics. They also help stop the land from washing away with their strong roots. People can also use the wood from trees to make houses, tables and paper. In conclusion, humans should consider the importance of trees for the earth. **They** should take care of the trees and protect them.

- 7) Trees make the air healthy. a) True b) False
- 8) The world will be safe for animals without trees. a) True b) False
- 9) What does 'take in' in line 2 mean?
 - a) absorb
 - b) generate
 - c) recycle
 - d) combine

- c. using washing machines during the peak time d. making more openings and windows in the walls

Answer the following questions.

When reading, you may find some words that are often written in capital letters, and seem to be different from other words in the text. Sometimes, these words sound difficult to pronounce. Abbreviations and acronyms are two examples of such words. They are short forms of words and phrases. An abbreviation is a shortened form of a word used in place of the full word (e.g., Adj for Adjective). An acronym is a word formed from the first letters of each of the words in a phrase or a name (e.g., IRIB for Islamic Republic of Iran Broadcasting). They help to make writing easier to read and understand. They also help us to write within a specific word limit, and avoid repeating the same words over and over. Sometimes, authors create new acronyms when **they** invent a new technique and want to make it sound cool. This helps people remember the technique more easily.

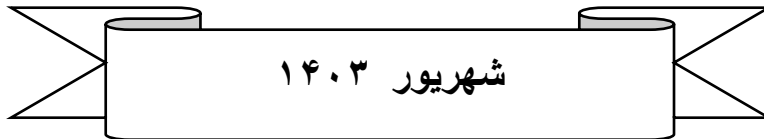

However, we should use these short forms carefully. Using too many of them can make the text harder to read, especially for people who do not know what they mean. It can confuse readers and make them lose their interest. To avoid wasting time reading through pages to find the definition of an unfamiliar word, we should use such forms sparingly and only when they're really necessary.

True / False

- 7) Abbreviations and acronyms are formed in different ways. a. True b. False
- 8) Using acronyms makes a text easy for both writers and readers. a. True b. False

Choose the best answer.

- 9) The underlined word '**they**' in the first paragraph refers to
- a. readers b. acronyms c. authors d. words
- 10) According to the above explanation, which one is false?
- a. PC (Personal Computer) b. AD (Anno Domini) c. BC (Before Christ) d. AD (Adverb)
- 11) How are abbreviations and acronyms similar to each other?
- 12) Why do authors use acronyms when creating a new technique?

The first wind machine was in Manjil, Iran, in 2001. The machine had three blades (wide parts) that moved in the wind, and could use the kinetic energy of the wind to make electricity. This wind machine was necessary for Iran because it gave renewable energy, unlike ways that used fossil fuels.

It also helped make less pollution and carbon gases. Running the wind machine was not easy. It needed careful planning and engineering knowledge. Engineers put it in a place with strong wind. Manjil was a good place because it had open land that was always windy. After the first wind machine, more have been made in Iran. These machines have added a lot to the country's energy making and made the country less dependent on nonrenewable resources. In short, the first wind machine in Iran was a big step in energy production. It produced lots of energy and made less pollution. Its success has made more wind machines in Iran.

- 6) The first and the last wind machine in Iran was in Manjil. **a. True b. False**
- 7) The wind machine in Manjil used fossil fuels to generate electricity. **a. True b. False**

Dictionaries come in different types, levels, and sizes based on the user's needs. For example, learner's dictionaries are designed for students, providing simple definitions, grammar tips, and example sentences to improve their understanding. On the other hand, advanced dictionaries include a range of vocabulary and detailed explanations suitable for high-level users. Similarly, dictionaries have different sizes, from pocket-sized or portable ones to large dictionaries that provide vast knowledge about language. People choose the dictionary they need according to their language goals and needs, whether they are language learners or not.

Think about charging your phone using electricity from the plants on your window. Scientists at Wageningen University in the Netherlands have worked on making this possible since 2007. They're using a natural process that's safe for both the plants and the environment. For centuries, people have used fossil fuels like oil and coal to generate energy. It has made our planet dirty and polluted. If we keep using these fuels, they will finish soon. The high cost of energy also affects our economy.

The research focuses on using plants to generate electricity. The plants make their food through photosynthesis, which uses sunlight to convert water and carbon dioxide into energy. The scientists have selected a special type of plant called "Teak", that is suitable for this purpose. They're studying how to use this plant to generate electricity without harming it or the environment. This new technology could help reduce pollution and weather change.

- 5) Scientists have worked on making new phones from plants. a. True b. False
- 6) The scientists have selected "Teak" to generate electricity a. True b. False
- 7) Which of the following is true about generating electricity from the plants?
 - a. It is harmful to environment
 - b. It has been used by people since 2007
 - c. It is a natural process
 - d. It will finish soon
- 8) The above passage provides answer to all the following questions **but** -----
 - a. What have people used to generate energy?
 - b. Where is Wageningen University?
 - c. How can plants generate electricity?
 - d. Which way of electricity generation is better?.
- 9) What is "photosynthesis"?
- 10) How could the new technology help the environment?

Elderly people have to deal with the problems of aging, especially those related to health and income. Health-related issues commonly include normal losses of hearing, eyesight and memory. In addition, the elderly run a high risk of developing some serious illnesses such as kidney problem, stomach cancer, diabetes, and heart disease.

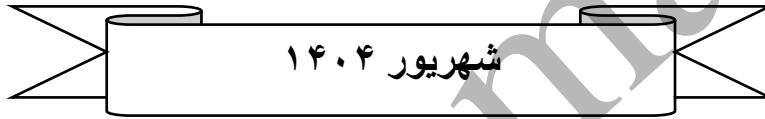

While some people do not experience these issues until very old age, a lot of them learn to find a way to live with the limitations caused by health problems. Nowadays, elderly people receive better medical care during their lives as most governments have national health plans for them. Income, as another important problem, has also influenced the way the elderly live. Most of these people are retired and do not work anymore. They usually earn about half the money that working people make. As a result, they may face various economic issues. This makes the situation even more difficult for those who do not have suitable houses, have no access to means of transportation and not receive social services. Something needs to be done to improve their condition so that they feel more hopeful about the future. They will find it difficult to keep their social relationships. Providing better medical care and meeting their money-related needs will help them live a happy life.

1. National health plans offer the elderly better medical care. a. True b. False
2. Keeping social relationships is hard in old age. a. True b. False
3. What are the two main problems of getting old?
 - a. experience and social services
 - b. health and income
 - c. cancer and sickness
 - d. limitations and retirement
4. Many elderly people deal with health-related problems by
 - a. being socially less active
 - b. not working any more
 - c. having several economic issues
 - d. getting help from their government
5. What serious health-related problems do the elderly face?
6. How much do retired people earn?

Electric cars will make gasoline cars less popular in the future. Electric cars use electricity that is stored in car batteries and do not use any types of fossil fuels. Hence, **they** are environmentally friendly. These cars have 12 or 24 batteries which might be similar to the batteries you can find in flashlights or in regular gasoline cars but are completely different from cellular batteries. To get these batteries ready to roll, you have to charge them just the way you charge the **portable** devices you carry around every day such as your cellphone, digital camera or laptop. You can recharge these batteries either at home or at gas stations. Car engineers are trying to use batteries that hold more energy and last longer. Until such batteries are available in the market, hybrid cars can be very helpful. Hybrid cars run partly on gasoline and partly on electricity. Many people believe hybrid cars can help reduce air pollution because they offer the benefits of gasoline engines and electric motors. Therefore, they can meet different goals such as better fuel economy or more power.

7. Electric cars have batteries which are like cellular batteries. **a. True** **b. False**
8. You need to recharge your electric car only at gas stations. **a. True** **b. False**
9. What does “they” in the second line refer to?
a. electric cars b. batteries c. fossil fuels
10. The word “portable” in line 5 is similar in meaning to
a. rechargeable b. suitable c. moveable
11. Electric cars are environmentally friendly because of
a. using a lot of gasoline b. not polluting the air c. being available in the market
12. What types of fuels can hybrid cars use?
13. What are car engineers trying to do?

Expanding vocabulary is necessary for communication and understanding. But what are some useful ways to achieve that? First, reading is a fantastic way to improve our vocabulary. This is possible by reading books, newspapers and checking the meaning of unfamiliar words in a dictionary. In this way, learners can understand the text better and remember the new words for future use. The second important technique to improve vocabulary is watching English movies. By doing this, learners can practice both listening and speaking skills. Third, they can write down unknown words they face for the first time in their notebook and look **them** up later. Lastly, to make learning vocabulary more effective, learners can use labeling as a strategy to name objects around their house. By writing the names of objects on small pieces of paper and sticking the notes to things such as a desk, window or fridge, learners can see words around them again and again. These are just some important ways to improve learners' vocabulary.

5. a synonym for the word "**expand**".
6. how many ways there are to learn more vocabulary.
7. a phrase similar in meaning to many times.
8. what **them** in line 7 refers to.
9. the technique that listening and speaking skills are practiced by.
10. the name of the technique by which learners stick notes to objects.

Sending emails, watching online videos and downloading music may seem harmless, but our online habits have a surprising impact on the environment. The impact of our online activities on the internet is called "Internet Pollution". Recently, the Internet has become a large part of our lives. According to some estimates, more than five billion people were online on 2022_ that's more than 60 percent of world's population. This number continues to **grow** rapidly as more people go online every year. This means that a large amount of data is stored in computers everyday which requires connecting more and more devices to the Internet. This leads to processing a huge amount of data and powering a large number of devices which can cause serious challenges for the environment.

However, there are some ways to protect the environment against the Internet Pollution. Since people are not aware of the amount of energy they waste by their online habits, teaching them how to use the Internet wisely is helpful. Also, developing technologies that help reduce energy consumption of our devices is another way. This can be done by using clean energy sources. Google, for example, uses solar panels and wind farms to power its data centers.

11. The Internet has always been a large part of our lives. a. True b. False
12. Google data centers use clean energy sources. a. True b. False
13. The passage is mainly about
- a. developing technologies b. Internet Pollution c. sending emails d. clean energy
14. The word **grow** in paragraph 2 is closest in meaning to
- a. increase b. create c. decrease d. replace
15. What can cause serious problems to the environment?
16. What are the two ways to protect environment against Internet Pollution?

Electric cars are getting more popular. They are cars that run on electricity instead of gas. This is good for many reasons. First, electric cars help keep the air clean. Gas cars make smoke that pollutes the air. Electric cars don't make any smoke when you drive them. This means cleaner air for everyone to breathe.

Second, electric cars can save you money. Electricity is often cheaper than gas. You plug the car in at home to charge it. That costs less than filling up a gas tank. Third, electric cars are often quiet. They don't make as much noise as gas cars. This can make driving more peaceful. Fourth, electric cars are good for the planet. They use less energy. This helps to protect our Earth and its resources. Electric cars are a smart choice for the future. They are better for the air, your wallet, and the planet!

- 7) Electric cars can help save your money. a) True b) False
8) Electricity is more expensive than gas. a) True b) False

Albert Einstein, a physicist, was born on March 14, 1879, in Germany. He could change people's understanding of the physical world, therefore, he has been considered as one of the greatest thinkers in science. After graduating in 1900, Einstein had a hard time finding a job. He finally got a job at the Swiss Patent Office in 1902. This job gave him the time to do some of his important works like writing theoretic papers on physics, especially his Theory of Relativity.

He became a professor at the German University in Prague. He began working at the Prussian Academy of Sciences in Berlin in 1914, and soon finished his work on his General Theory of Relativity, which was published in 1916. Einstein was awarded the Nobel Prize for physics in 1921. In 1933, he left Germany because

of the strict rules of Hitler. He went to work at the Institute of Advanced Study at Princeton University in New Jersey. He later became a U.S citizen. During World War II, he wrote a letter to President Roosevelt expressing his worry about the atomic bomb.

After stopping his work in the institute in 1945, he spent much of his time giving lectures and speeches and working on theories. In his final years, he lost his health. He was hospitalized with stomach pains several times, and he died on April 18, 1955.

All of our energy comes from the sun which is our nearest star. The sun sends out huge amounts of energy through its rays every day. We call this energy solar energy or radiant energy. Life on earth would not exist without the sun because our planet would become totally frozen. We use this solar energy in many different ways. The sunlight lets us see and warms us. Plants use light from the sun to grow and they store it as chemical energy. This process is called Photosynthesis. The energy is stored in their roots, fruits, and leaves. This energy feeds every living thing on the earth. When we eat plants and the food made from plants, the energy is stored in our bodies especially in our muscles and brain cells. We use this energy for everything we do. We use energy when we sing a song, think a thought, tell a joke or climb mountains. Everything needs energy.

Just as humans store energy in their bodies, the earth stores the sun's energy too. The sun's energy has also been stored in coal, oil, and natural gases which are known as fossil fuels. We may use the energy in these fossil fuels to make electricity. We light and heat our homes, schools, and offices and also run our computers by electricity. Our cars and planes run on gasoline which comes from oil. Fossil fuels are known as non-renewable sources of energy, so they can't be used over and over again. This means that one day they will run out!

Luckily, there are some renewable energy sources we can use, and we can keep using. Unlike nonrenewable fossil fuels, **they** will not run out. Three forms of renewable energy are: solar energy, water energy and wind energy. Solar energy can be caught through solar panels. People put solar panels on the top of houses to help capture the sun's energy and transform it into heat and electricity. Water is also used to produce electricity. Wind is a third form of renewable energy. Wind turbines can get the energy of the moving air and turn it into electricity. All these renewable energy sources are essential for us because they will not run out, so we need to get better and better at using them.

When using a dictionary, it is important to follow a few simple steps. First, choose the right dictionary for your level. For example, an elementary level learner should pick a basic dictionary. Once you have your dictionary, read the introduction carefully. It explains how to use the dictionary properly and gives useful tips. Next, learn the abbreviations used in the book, such as “n” for noun, “v” for verb, and “adj” for adjectives. These are important for understanding the parts of speech quickly.

Also, find and learn the guide to pronunciation. This part shows how to say words correctly, which is very helpful. When you look up a word, always read the guide words at the top of the page. They tell you where in the alphabet the word is located. Lastly, read the definitions carefully to understand the meaning of each word. Take your time to learn from these definitions to expand your vocabulary.

Using these methods will improve your language skills. It helps you understand new words faster and say them right. Do you find using a dictionary easy? What is the most helpful point for you?

6) You should pick a difficult dictionary even if you are a beginner. **a. True** **b. False**

7) The introduction explains how to use the dictionary. **a. True** **b. False**

8) What is the first thing to do when using a new dictionary?

- a) Learning all words. b) Reading the introduction
 c) Looking up unknown words d) Learning the pronunciation symbols

9) Why are guide words useful?

- a) They tell you the meaning of words. b) They help you locate the words in the dictionary.
 c) They explain pronunciation. d) They show how to spell

❖ Answer the following questions.

10) Why is it helpful to read the definitions carefully?

11) How does knowing the guide to pronunciation improve your speaking?

Our demand for electricity is climbing so fast that over the next decade our generating capacity must increase by a third. Fossil fuels supply nearly three-quarters of this energy. But the smoke from coal, gas, and oil-fired plants is also responsible for half of our air pollution. That might be considered as a small price to pay for progress. But there's an alternative, one that produces no smoke and can actually create more fuel than it consumes. In many regions, it's even cheaper than coal-fired electricity, nuclear power.

It may directly bring the danger of radioactivity to the mind, but if other types of power didn't present equal and even worse problems, it would not be reasonable to consider nuclear power at all. But they do.

6. Nuclear power is cheaper than coal-fired electricity all over the world. a) True b) False

7. The smoke from oil-fired plants is responsible for half of our air pollution. a) True b) False

8. Nuclear power presents equal and even fewer problems compared to other types of power. a) True b) False

Online dictionaries have the advantage of being free, portable, and easily accessible. However, there are several different types of dictionaries available.

- **Learner Dictionaries** use simple vocabulary in their definitions to help English Language Learners understand what words mean; they do limit the number of definitions they present, so they may not be the best choice for more advanced English students.
- **Bilingual Dictionaries** allow you to see the English definitions and a translation of the word into another language; however, using this type of dictionary can make it more difficult to remember the word later, since you are already familiar with the word in the other language.
- **Native English Dictionaries** will give the most definitions of a word, but not all are created equal. Choose a dictionary based on your variety of English (American vs. British, for example) that includes links to other forms of the word, example sentences of word use, and synonyms and antonyms. It's also important to find which definition is the correct definition: If a word has several definitions, first identify which part of speech is appropriate for the word based on the context. Then look for word combinations that may appear in your text.
